Airbnb Setup

The all-new, super easy way to Airbnb your home, with free one-to-one guidance from a Superhost.

Over the past year, more than 30 million people have visited Airbnb to learn about hosting. Today, we're making it easier for millions of people to get started. Introducing Airbnb Setup, the all-new, super easy way to Airbnb your home with free one-to-one guidance from a Superhost.

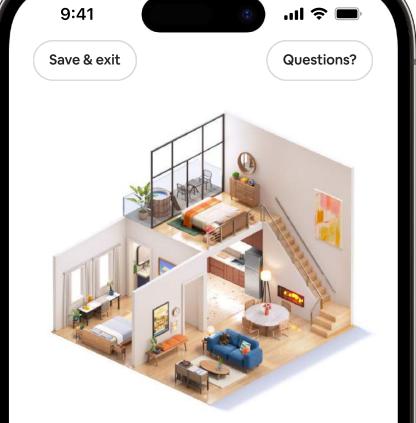

Step 1 Tell us about your place

In this step, we'll ask you which type of property you have and if guests will book the entire place or just a room. Then let us know the location and how many people can stay.

Next

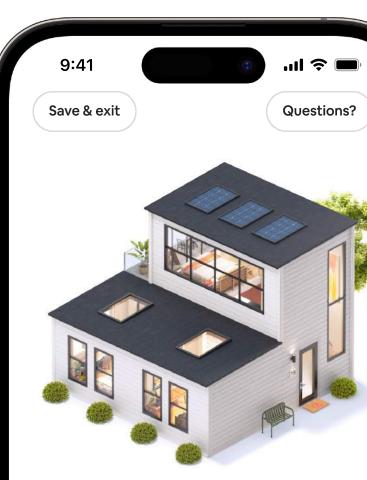

Step 2

Make your place stand out

In this step, you'll add some of the amenities your place offers, plus 5 or more photos. Then, you'll create a title and description.

Next

Step 3

Finish up and publish

Finally, you'll choose if you'd like to start with an experienced guest, then you'll set your nightly price. Answer a few quick questions and publish when you're ready.

Get matched with a Superhost

When you begin Airbnb Setup, we'll match you with a Superhost who can help guide you through the process, from your first question through your first guest.

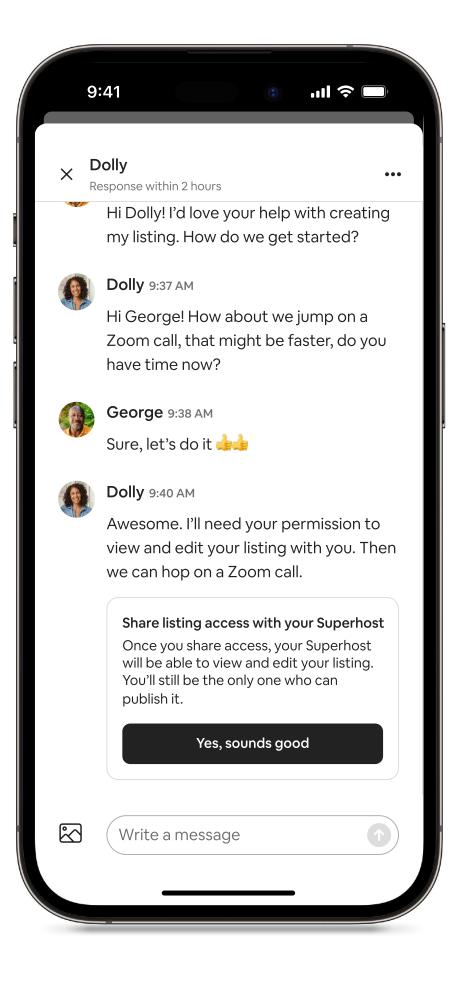

Real-time assistance over video, audio, or messaging Using the Airbnb app, you can message your Superhost or chat with them on an audio or video call.

Your Superhost can help list your space

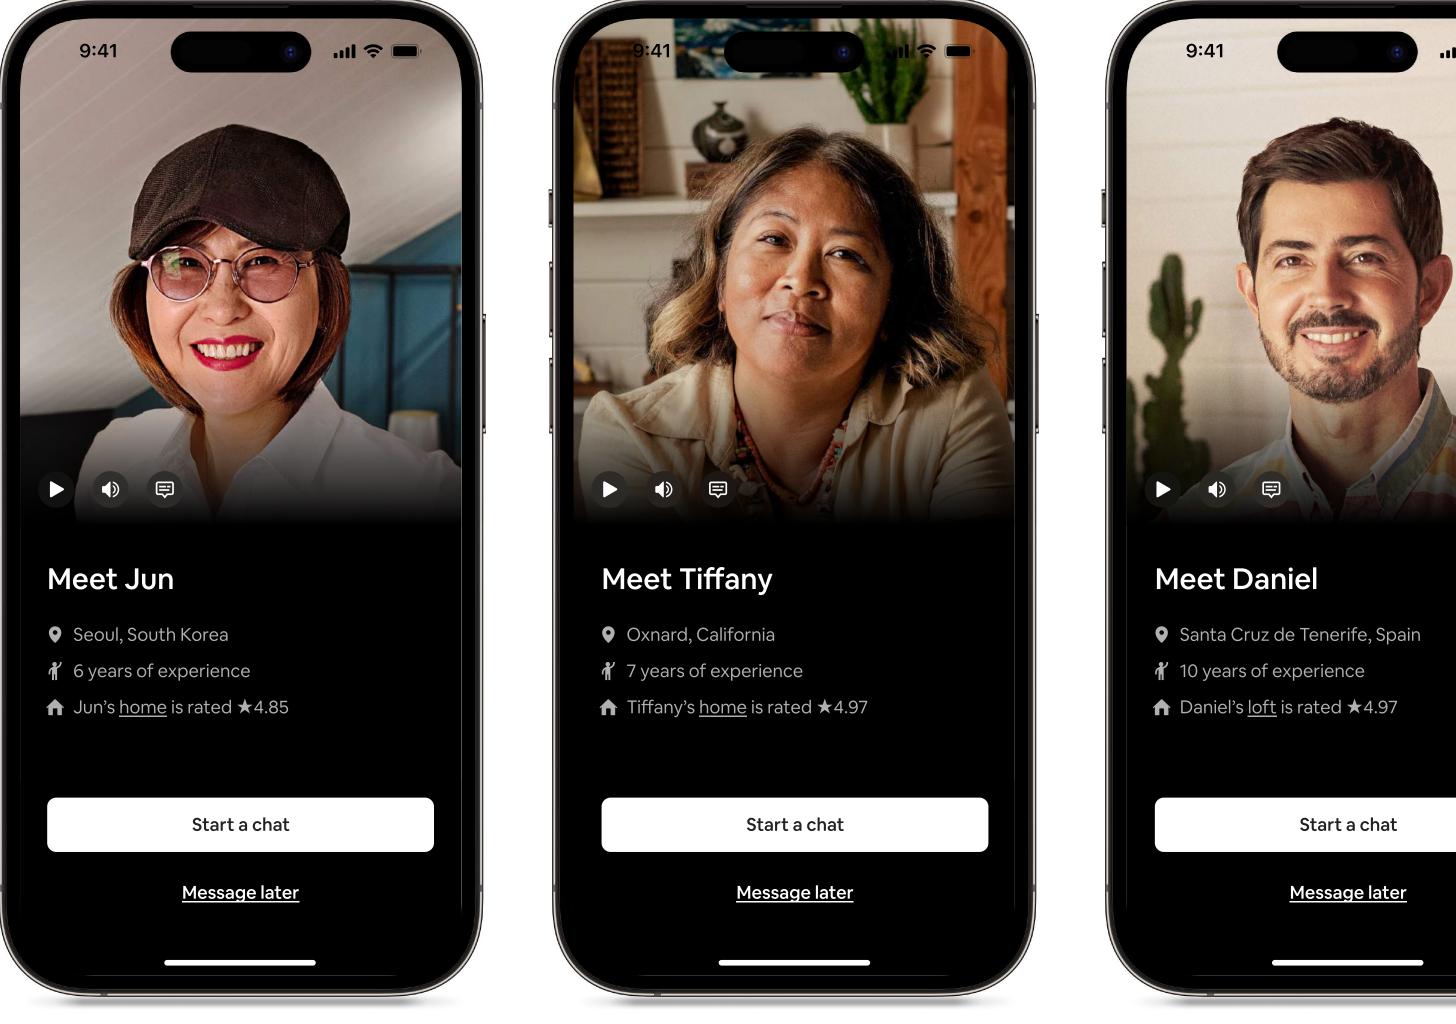

Your Superhost can help throughout the listing process with tips on photos, titles, and even how to prepare your home for your first guest.

One-to-one guidance from a Superhost

Airbnb Setup will launch with over 1,500 Superhosts, who speak more than 40 languages in over 80 countries around the world. The program will continue to grow to thousands of Superhosts who are specially-trained to help new Hosts get started from their first questions through their first guest. They're experienced Hosts who regularly welcome guests into their own homes, and are dedicated to helping new Hosts get started.

An experienced guest for your first booking

For your first booking, you can choose to welcome an experienced guest who has at least three stays and a good track record on Airbnb. Your experienced guest will know you're new, so they can provide helpful suggestions about how to become an even better Host.

Specialized support from Airbnb

As a new Host, you get one-tap access to a specially trained team of Community Support agents. They can help with everything from account issues to getting paid and are available via phone, messaging, or email in over 42 languages.

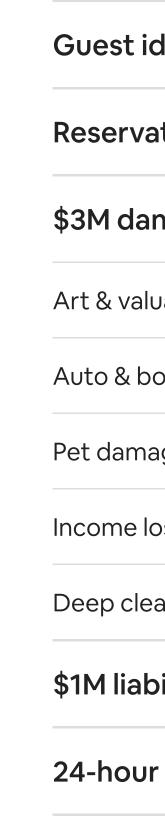

Even more AirCover for Hosts

Now featuring even more top-to-bottom protection, with guest identity verification, reservation screening, and \$3M damage protection, including coverage for cars, boats, art and valuables.

Last November, we introduced AirCover to provide unmatched, top-to-bottom protection for every Host on Airbnb and today, we're making major upgrades to AirCover for Hosts.

Reservation screening technology

We are launching our proprietary reservation screening technology, which helps reduce the chance of disruptive parties and property damage. This technology uses an advanced custom-built machine learning model—trained on data from millions of Airbnb trips—to evaluate hundreds of factors for each reservation. Reservation screening technology, which has been available in Australia, is now launching in the US and Canada. It will expand to reservations worldwide in Spring 2023.

\$3 million damage protection

We are tripling damage protection from \$1 million up to \$3 million—protecting both your home and its contents.

Auto and boat protection

We now provide damage protection for cars, boats, and other watercraft that you park or store at your property.

Art and valuables protection A wider range of fine art, jewe

A wider range of fine art, jewelry, and collectibles will now be repaired or replaced at appraised value.

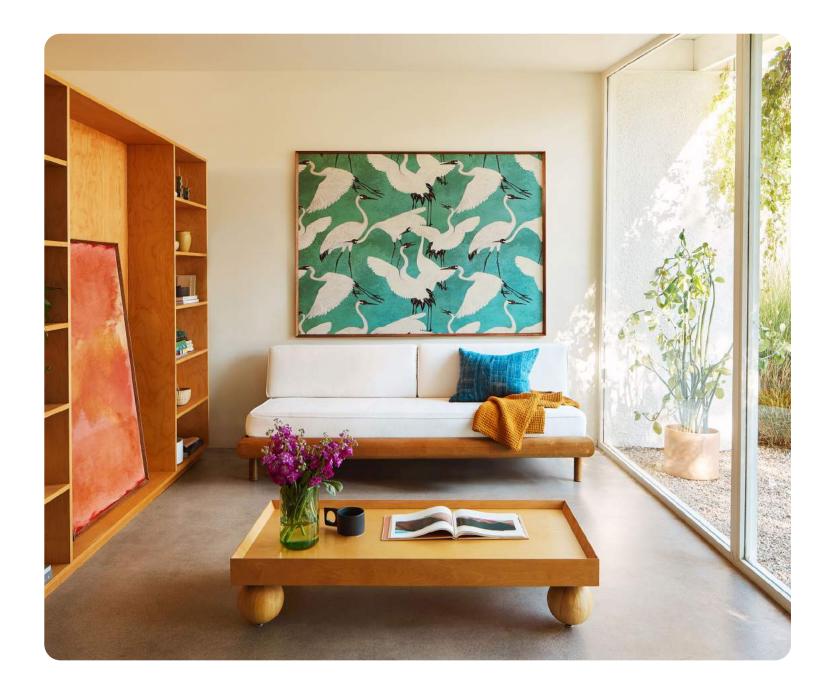

Easier to file a claim

You can now file a claim for damage protection in a few simple steps and easily track its progress from submission through reimbursement.

New Airbnb Categories

We're adding six new categories of homes, as well as improving the way Airbnb Categories are displayed.

In May, we introduced a new way to search designed around Airbnb Categories. Today, we are introducing six new categories.

New

Great finds added to Airbnb within the past 10 weeks.

Top of the world

Homes around 10,000 feet above sea level, often with stunning views.

Trending

Highly-rated homes getting lots of attention on Airbnb.

Adapted

Verified step-free paths into the home, bathroom, and bedroom.

Play

Places with game rooms, water slides, and more.

Hanoks

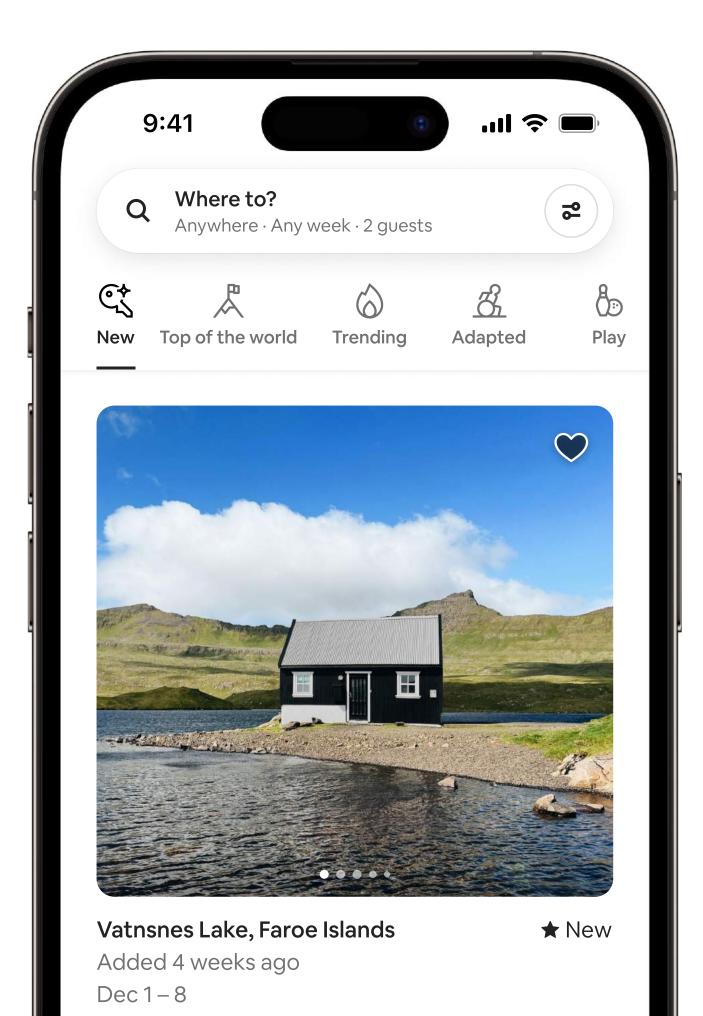

Traditional Korean homes made from natural materials.

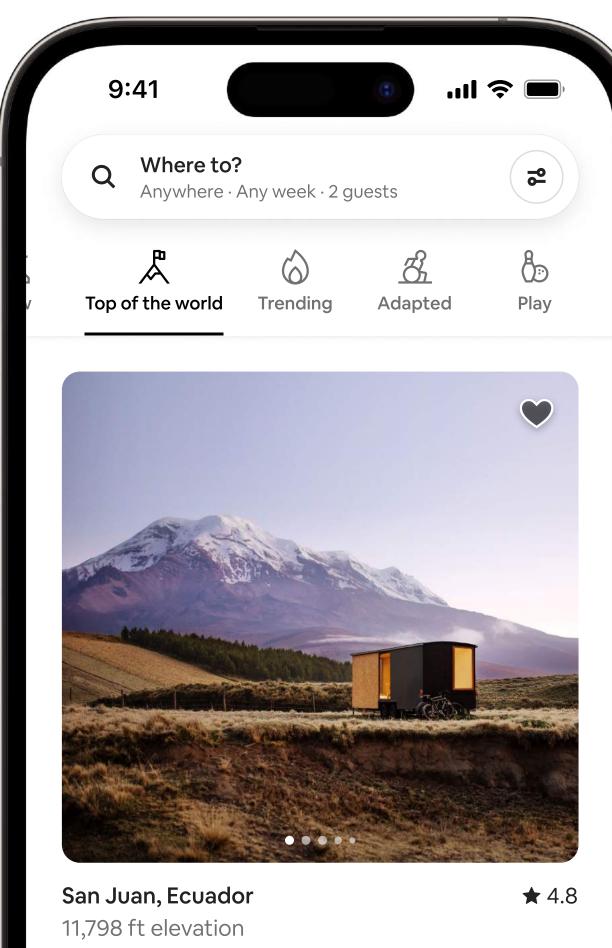

New

A dynamic category that changes every day and includes homes added to Airbnb within the past ten weeks.

Adapted

Homes adapted for wheelchair access that have been verified to ensure they have step-free entrances into the home and to one or more bedrooms and bathrooms, in addition to at least one accessibility feature in the bedroom or bathroom. All homes in this category have been analyzed by Matterport's uniquely powerful Property Intelligence, which uses AI to analyze and verify that they meet these mobility criteria.

Play

Homes with activities and entertainment for guests who are young or young at heart, including features such as basketball courts, arcade rooms, waterslides and more.

Hanoks

Traditional homes in South Korea built using natural elements including earth, wood, and rock to keep guests cool in summer and warm in winter.

Category enhancements

We're enhancing personalization to show categories based on your recent searches. For example, when you launch the app, you'll see the Vineyards category if you recently searched for homes in Napa. In addition, more details will be presented in search results when viewing categories. For example, homes with amazing views will list the type of view, and homes near national parks will show the distance to the park entrance.
